Reform has a good friend in the manner of the manner n the manner in which the elecno member may know how another votes. This is a wise provision the better thinkers to floor the necessity of ever being called upon Courier-Journal.

Horse-Breeding and Management. for a permanent structure of this At a late meeting of the West kind, but logs from the woods, split Riding Chamber of Agriculture, timber, or even slabs from the sawyorkshire, England, Mr. Brady Niconousox, of Stanton Grunge, Garforth, read a paper on this subject, from which we condense the left by the width of the sash used

following extract:

"Presuming you are anticipating the arrival of your first foal from the arrival of your first foal from wider or narrower. Of course it ing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are may facinate and marriage Guide, showing how either are marriag the favorite mare, the mare is better for exercise—alow work on the farm, if such is her occupation, even up to the time of foaling.

Just for that time, if early is the senson, she should have bran and varied to correspond with the clilinseed mixed. When the foal armate; the further north the excarives, should it be costive, either vation the deeper it will have to be give it a little easter oil or give it to prevent freezing. Four to six Stisson & Co., Portland, Maine. an enema. Many toals are lost in feet are not unusual depths even the first few days from want of attention at this particular time. It is also attended with danger, disference tending the mare when foaling, incovering them descending in the the presentation is natural. Thirty-five years ago I thought I would manner as in ordinary hot-bed. be clever, and assist a favorite Straw mats, or some such ma-mare of my father's. Although I terial, for a covering over the glass, only gently pulled the feet of the should also be provided, because in foal, my interference hurried the very cold, cloudy weather, and at mare, and she died a quarter of an night, protection will be necessary. hour after the arrival of the little stranger—she flooded away. When

I came home from school we had and also secure some solar heat, some forty horses on the place. I even in very cold weather. thought I would commence doctoring them, and began to experiment on my father's horses when ill. I think I killed three. One was attacked with inflammation. I bled less heavy and expensive materials him till I got the proper pulse, will do for covering the glass. Alrather fast from the reaction; so, most any one can plan and build through ignorance, bled again, and a pit of this kind to meet his wants, and the horse died. Young herses and we can assure those who have require, like all other young ani- never used such a structure that mals, good keep, and grazing upon pasture land that has been well boned. When I was at Newmarket judging greyhounds in 1845, the late Lord George Bentinck himself aprend bone dust on the grass than the round yearling race. where his young yearling race horses grazed. Foals are better taught to lead as soon as taken from the mare, and their legs and aniums, lantanas, bouvardias, and from the mare, and their legs and feet handled. If they happen to meet with any accident, unless they have been haltered and led, they are very bad to manage. Young horses, like children, require kindness and firmness. The quire kindness and firmness. The coldest weather the pit may be left. more quietly you move about them coldest weather the pit may be left the better. Numbers of horses are banked and covered with snow for apoilt by ill-treatment. Horses do a week or two at a time without know the person who behaves ill serious injury to its contents; still, to them, and most of them when it is well to uncover and give light young will, after ill-treatment, give and air as often as it can be done sparting salute when they have the opportunity. I also look atraight at the eye of a horse when I go up to him. If he drop his ear back, I give a quick glance; I speak to him, which draws off his attention of kicking. If a man walks boldly up to a horse, he will seel one of the most useful adjuncts to seldom lash out. Rarey's success one of the most useful adjuncts to the proper tackle to put on a horse.
"At two years old a young horse labor of building.—[Rural New

had better be mouthed and care-had better be mouthed and care-fully handled a few recks before At three turning out to pasture. At three years he should be broken—a most critical time. the coming year. In the field of fiction.

The first of these, now complete in "Gabriel Conroy." By BRET. HART,

Begins in the November Number, and will ran for twelve months. This is JOURNAL OF AGRICULTURE scenes and characters, which the author nia, are painted with characteristic vivid-ness and power; and the work is without doubt the most graphic record of early California life that has yet appeared. We shall also begin in the danuary num-

"Philip Nolan's Friends, Or, Show Your Pastports," By Edward Everett Hale.

The scene of this story is laid in the Southwestern territory, now forming the States of Louisianz and Texas, at the time of Aaron Burr's treason. The characters lived in a section which was now American, now French, and now Spanish, and this record of their adventurous lives makes a story of intense and unflagging interest throughout.

A Second "Farmer's Vacation," By Col. Geo. E. Waring, Jr. Col. Wantes is now in Europe, visiting in a row-boat ride of two hundred and fifty

miles, one of the most fertile and interest-ing of the vine growing valleys of Kurope. This second series of papers promises to be even more interesting than that with which our readers are already familiar.

Centennial Letters, Edited by John Vance Cheney. Are a rare collection of Revolutionary Letters mainly from stores in the hands of the decendants of Col. JOSETH WARD,-They are full of interest, and will be read with a rare relish in connection with the Centennial celebration of the year.

BRILLIANTLY ILLUSTRATED AR-TICLES ON American Colleges. Written respectively by their friends, will appear during the year. The revived in-terest in college life makes these papers especially timely, and will secure for them unusual attention.

Old New York. Elegantly illustrated articles on Old New York, by Jours F. Mines, will appear at once, and will attract the attention of all, in city or country, who mark with interest the development of the great metropolis, and affectionately remember the quaint peculiarities of its olden time.
